## Investment Objectives and Strategies

Dividend 15 Split Corp. invests primarily in a portfolio of dividend yielding common shares, which will include each of the 15 Canadian companies listed below:

Bank of Montreal	Sun Life Financial Inc.
BCE Inc.	TELUS Corporation
Canadian Imperial Bank of Commerce	The Bank of Nova Scotia
CI Financial Income Fund	The Thomson Corporation
Enbridge Inc.	The Toronto-Dominion Bank
Manulife Financial Corp.	TransAlta Corporation
National Bank of Canada	TransCanada Corporation
Royal Bank of Canada	

The Company may also invest up to 15% of the Net Asset Value in equity securities of issuers other than the 15 companies listed above. In order to supplement the dividends received on the Portfolio and to reduce risk, the Company will from time to time write covered call options in respect of some or all of the common shares of the portfolio.

The Company offers two types of shares:

### Preferred Shares

The investment objectives with respect to the Preferred Shares are as follows:

1. to provide holders with fixed cumulative preferential monthly cash dividends in the amount of \$0.04375 per Preferred Share to yield 5.25% per annum on the original issue price; and
2. on or about December 1, 2014 (the termination date as extended at the special meeting of Shareholders on April 24, 2007) to pay holders the original issue price (\$10) of the Preferred shares.

### Class A Shares

The investment objectives with respect to the Class A shares are as follows:

1. to provide with regular monthly cash dividends initially targeted to be \$0.10 per Class A shares to yield 8% per annum on the original issue price; and
2. on or about December 1, 2014 (the termination date as extended at the special meeting of Shareholders on April 24, 2007), to pay holders at least the original issue price (\$15) of those shares.

## Risk

The risks of investing in the Company remain as discussed in the Annual Information Form dated February 21, 2007.

## Results of Operations

The Company exceeded its distribution objectives during the period while also increasing the net asset value by \$ 0.45 per unit to \$29.78 (after all distributions paid). In addition to the regular distributions paid, the Class A shares received two special distributions of \$0.50 per share and a special capital gains stock dividend of \$1.75 per share which was payable to shareholders on record as at May 31, 2007. The capital gains stock dividend was reinvested in additional Capital shares. In connection with this special dividend, the Company issued an additional 841,476 Preferred shares on June 4, 2007 in order to ensure that the same number of Preferred shares and Capital shares would be outstanding. At May 31, 2007 the Company's portfolio remained primarily invested in the 15 core Canadian large capitalization companies which rank among the highest dividend yielding stocks on the TSX. The dividend income in the portfolio continues to be supplemented by a limited covered call writing program which provides some additional income to the portfolio.

## Distributions

### Class A Shares – Distributions

Class A shareholders are entitled to receive regular monthly cash dividends initially targeted to be \$0.10 per Class A Share to yield 8.0% per annum on the original issue price. Distributions paid during the period included the six regular monthly cash distributions plus 2 special distributions of \$0.50 per share in cash and \$1.75 in a capital gains stock dividend.

### Preferred Shares – Distributions

Preferred shareholders are entitled to fixed, cumulative preferential monthly cash dividends in the amount of \$0.04375 per Preferred Share to yield 5.25% per annum on the original issue price. Distributions paid during the period were at the fixed rate for a total of \$0.2625 per share.

### Cumulative Distributions since inception

### Cumulative Distributions since inception

## Recent Developments

A resolution to extend the termination date of the Company to December 1, 2014 was approved by both classes of Shareholders at a special Shareholders meeting held on April 24, 2007.

The Canadian Institute of Chartered Accountants (CICA) has issued new standards for the fair valuation and recording of portfolio investments for fiscal years beginning on or after October 1, 2006 (see note 2 in the semi annual financial statements for further details). Basically, the new standards require that portfolio investments be measured based on the last bid price of a security rather than the last traded price (as previously had been the case). The semi-annual financial statements attached reflect these changes. The implementation of these new valuation standards is immaterial to the Company as can be seen in note 2 which presents the actual impact of this change on the net asset value per unit.

## Related Party Transactions

None

### Management fees

The Investment Manager is entitled to a base management fee payable monthly in arrears at an annual rate equal to 0.65% of the Company's Net Asset Value calculated as at the last Valuation Date in each month.

The Manager is entitled to an administration fee payable monthly in arrears at an annual rate equal to 0.1% of the Company's Net Asset Value calculated as at the last Valuation Date in each month.

Total management fees of \$1,088,803 paid for the period ended May 31, 2007 include the base management fee and the administration fee. The base management fee was used by the Investment Manager to pay costs associated with the managing of the investment portfolio, providing investment analysis and recommendations, making investment decisions, making brokerage arrangements for the purchase and sale of securities including the covered call writing program. The administration fee was used to provide or arrange administrative services required by the Company, which includes all operational, financial accounting, shareholder reporting and regulatory reporting requirements.

Net asset value per unit at end of period	29.78	29.33	27.78	24.53

<sup>(1)</sup> Net asset value per unit is the difference between the aggregate value of the assets of the Company and the aggregate value of the liabilities excluding the Preferred shares of the Company on that date divided by the number of units then outstanding.

<sup>(2)</sup> Results for the period March 16, 2004 (inception) to November 30, 2004.

<sup>(3)</sup> Initial net asset value per unit is after deducting all agents' fees and filing costs in connection with the initial public offering.

<sup>(4)</sup> Total increase (decrease) from operations is before the payment of Preferred and Class A share distributions and is calculated based on the weighted average number of units outstanding during the period.

<sup>(5)</sup> Distributions to Preferred shares and Class A shares are based on the number of Preferred shares and Class A shares outstanding on the record date for each distribution and were paid in cash. Characterization of distributions is based on the tax treatment that is received by investors.

<sup>(1)</sup> Results for the period March 16, 2004 (inception) to November 30, 2004.

<sup>(2)</sup> This information is at May 31 or November 30 as applicable

<sup>(3)</sup> A separate base management expense ratio has been presented to reflect the normal operating expenses of the Company excluding the one time initial offering expenses and performance fees. Management expense ratio is based on total expenses for the stated period and is expressed as an annualized percentage of average net assets during the period.

<sup>(4)</sup> Share issue expenses, representing all Agents' fees and other offering expenses are one time initial expenses connected with the launch of the Company or any subsequent secondary offering.

<sup>(5)</sup> Performance fees occur in periods in which the total return per unit exceeds a pre established threshold.

<sup>(6)</sup> The Company's portfolio turnover rate indicates how actively the Company's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Company buying and selling all of the securities in its portfolio once in the course of the year. The Company employs a covered call writing strategy which can cause the portfolio turnover rate to be higher than conventional mutual funds.

<sup>(7)</sup> The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of average net assets during the period.

## Past Performance

The past performance of (1) the net asset value per unit (1 Preferred share and 1 Class A share), (2) the Preferred share on net asset value basis, and (3) the Class A share on a net asset value basis for the six month period ended May 31 and for each 12 month period ended November 30 since inception are presented in the bar charts below. In respect to the charts displayed below, please note the following:

- the performance information shown assumes that all cash distributions made by the Company during the periods shown were reinvested in the applicable additional securities of the Company;
- the performance information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance; and
- past performance of the Company does not necessarily indicate how it will perform in the future.

<sup>(1)</sup> Based on initial period from March 16, 2004 (inception date) to November 30, 2004

## Notes to Financial Statements

For the six month period ending May 31, 2007 and 2006 (unaudited)

### 1. Incorporation

Dividend 15 Split Corp. (the "Company") is a mutual fund corporation established under the laws of the Province of Ontario on January 9, 2004 and began investment operations on March 16, 2004. The manager of the Company is Quadravest Inc. (the Manager) and the investment manager is Quadravest Capital Management Inc. (Quadravest). All shares outstanding on December 1, 2014 (as extended at the Special meeting of Shareholders on April 24, 2007), the termination date of the Company, will be redeemed by the Company on that date.

### 2. Summary of significant accounting policies

These financial statements, prepared in accordance with Canadian generally accepted accounting principles ("GAAP"), include estimates and assumptions by management that affect the reported amount of assets, liabilities, income and expenses during the reporting periods. The following is a summary of the significant accounting policies followed by the Company. Actual results could differ from these estimates.

#### New Accounting Standards

The Canadian Institute of Chartered Accountants (CICA) issued Section 3855 of the CICA Handbook, "Financial Instruments-Recognition and Measurement", which established standards for the fair valuation and recording of portfolio investments effective for fiscal years beginning on or after October 1, 2006. Section 3855 requires that securities be valued at fair value, which in an active market will commonly be measured based on the last bid price for the security. Prior to October 1, 2006, fair value was most commonly based on the last traded price of a security for the day.

National Instrument 81-106, section 14.2, issued by the Canadian Securities Administrators ("CSA") in 2005, requires the net asset value of an investment fund to be calculated in accordance with Canadian GAAP. The CSA has granted relief to investment funds from complying on a temporary basis with Section 3855, for the purposes of calculating and reporting net asset value (other than for financial reporting purposes) until September 30, 2007, to permit further review of the impact this pronouncement has on the redemption price of an investment fund ("Transactional"). Depending on the outcome of this review, the method by which net asset value is calculated as governed by Section 3855 may result in a change to the Transactional NAV on such date. In accordance with the relief granted by the CSA, a reconciliation of the net asset value calculated in accordance with Section 3855 of an investment fund (GAAP NAV) is required to be disclosed in the financial reporting periods in the one year period ending September 30, 2007. The Company has applied this change on a prospective basis. The reconciliation of the Company's Transactional NAV (ie. based on last traded price of portfolio securities) and the GAAP NAV (ie. based on last bid price of portfolio securities) is presented in the following table:

	GAAP NAV	Difference	Transactional NAV
May 31, 2007	280,000,928	174,223	280,175,151
	GAAP NAV per unit	Difference	Transactional NAV per unit
May 31, 2007	29.78	.01	29.79

### 2. Summary of significant accounting policies (continued)

#### Transaction costs

- Transaction costs, such as brokerage commissions, incurred in the purchase and sale of securities by the Company are recognized as an expense in the Statement of Operations and Retained Earnings. Prior to December 1, 2006, the Company's policy had been to add these expenses to the costs of securities purchased or deducted from the proceeds of sale. The transaction costs for investments held at May 31, 2007 is shown separately on the Statement of Portfolio Investments. Effective December 1, 2006, the Company adopted the new accounting policy retroactively, without restatement of prior periods. The adoption of the policy does not impact the Transactional NAV or the GAAP NAV.

#### Valuation of investments

Investments are recorded in the financial statements at their market values at the end of the period, determined as follows:

- Shares or other securities for which market quotations are readily available are valued at the closing bid price.
- Listed options are valued at market values as reported on recognized exchanges. Over the counter options are valued using an appropriate valuation model.

#### Investment transactions and income recognition

- Investment transactions are accounted for on the trade date.
- Realized gains and losses on investment sales and unrealized appreciation or depreciation in investment values are calculated on the average cost basis.
- Option fees paid or received are deferred and included in investments on the statements of financial position. Realized capital gains or losses are recognized in the statements of operations when options are exercised, expire or are closed out.
- Deferred gains and losses on options are recognized in investments and as a component of net unrealized appreciation (depreciation) in the value of investments in shareholders' equity.
- Dividend income is recognized on the ex-dividend date. Interest income is recognized when earned.
- Net realized gains and losses on investments include net realized gains or losses from foreign currency changes.

Preferred shares have a per value of \$10 per share. Preferred shares are entitled to fixed, cumulative monthly cash dividends of \$0.04375 per Preferred share. All Preferred shares outstanding on December 1, 2014 will be redeemed by the Company on that date. For accounting purposes, the Preferred shares have been presented as liabilities in the financial statements in accordance with Section 3861 of the CICA Handbook.

Preferred shares trade under the symbol "DFN.PR.A" on the Toronto Stock Exchange (TSX). Preferred shares trading price on the TSX was \$10.42 as at May 31, 2007 (\$10.56- May 31, 2006). Preferred shares may be surrendered at any time for retraction at specified retraction amounts, but will be retracted only on the last day of each month. Shareholders who concurrently retract a Preferred share and a Class A share (together, a "unit") in the month of August in each year will be entitled to receive an amount equal to the transactional net asset value per unit on the last day of August. Preferred shares retracted in any other month will receive a retraction price based on a discounted specified retraction formula. Under the terms of a Recirculation Agreement, the Company may, but is not obligated to, require the Recirculation Agent to use its best efforts to find purchasers for any Preferred shares or Class A shares tendered for retraction.

The Preferred shares rank in priority to the Class A shares with respect to the payment of dividends. Preferred shares rank in priority to the Class A shares upon termination of the Company.

### 6. Distributions

The Company's investment objectives are to provide steady monthly distributions to both the Preferred and Class A shareholders while returning the original issue price to each shareholder on the termination date of the Company on December 1, 2014.

Distributions per share were as follows:

	May 31, 2007	May 31, 2006
Preferred shares	\$0.2625	\$0.2625
Class A shares	\$2.85	\$0.85

### 7. Income Taxes

The Company is a mutual fund corporation as defined in the Income Tax Act (Canada) (the Act) and is subject to tax in respect of its net realized capital gains. This tax is refundable in certain circumstances. Also, the Company is generally subject to a tax of 33-1/3% under Part IV of the Act on taxable dividends received in the year. This tax is fully refundable upon payment of sufficient dividends.

The Company is also a financial intermediary corporation as defined in the Act and, as such, is not subject to tax under Part IV.1 of the Act on dividends received nor is it generally liable to tax under Part VI.1 on dividends paid on taxable preferred shares.

### 8. Financial instruments and risk management

The fair values of the Company's assets and liabilities are affected by changes in interest rates and equity markets. The Company manages these risks through the use of various risk limits and trading strategies.
